- .Developed a web-based QR Code Generator using HTML, CSS, and JavaScript, allowing users to generate QR codes for any searched word or phrase.
- Gained proficiency in front-end web development and JavaScript-based dynamic content generation.

Amazon Website Clone — **March 2024**
- Developed a clone version of the official amazon website.
- An individual project developed to improve knowledge in programming concepts.
- Gained knowledge in React.js along with Html, CSS and Bootstrap.

TECHNICAL SKILLS

- HTML5
- Python
- Bootstrap,CSS3
- JavaScript
- PCB designing (EasyEDA)
- Autodesk Fusion 360
- Visual Studio Code

SOFT SKILLS

- Fast learner and adaptability
- Multi-tasking
- Priority management
- Leadership
- Creative Thinking
- Team Player
- self taught

HOBBIES

- Reading
- Writing
- Watching movies
- Listening to music
- Cooking
- Playing Badminton
- Playing Carroms
